# Bespoke Software

Launched in March 2003 and regularly updated our Unique Windows Software (works on all versions of Windows) allows you to manufacture Number Plates & Signs, record all legislative details in SECONDS. All operations are accessed from a main screen that allows you to fully customise your Number Plate and view its construction before you sending plate to your Mono or Colour THERMAL or LASER printer.

## Thermal Print Solutions

NPS offer a range of Thermal Printing Solutions that allow you to cost effectively manufacture your own plates on-site. Ideal for those who produce large volumes, they are capable of printing the registration number and black logos. Colour logos and borders are available on pre-printed reflective or HD film.

## Laser Print Solutions

We also offer a range of state of the art Laser Printing Solutions that allow you to cost effectively manufacture your own plates on-site. There is a range of laser printers to suit all needs, plus NPS also supply every component or consumable you will need to keep your business moving.

## FrameTek Backing Frames

NPS offer a range of quality number plate surrounds. FrameTek is available in four different variants to suit your needs and budget.

They can be supplied plain, with mono white print, with full colour print or in beautifully photorealistic HD colour.

FrameTek offers double the branding space of a standard lipped plate and our research shows it is 92.4% more visible, allowing you to promote your branding, photos, tactical sales messages and most importantly your contact details, all in one place.

## The Range

**Plain Frame:** A high quality, plain, cost effective, black plastic backing frame.

**Mono Frame:** A high-quality black backing frame with a striking white print. Display your dealer name and contact details with real impact. Perfect for the promotion of your company name and details.

**Colour Frame:** A high quality black backing frame with a striking 4 colour print. It's highly visible and ideal for displaying your brand, contact information and company logo. Perfect for brand promotion.

**HD Frame:** An industry first, a frame with high gloss photorealistic HD print. The perfect solution for intricate and detailed imagery as well as your logo, contact details and URL to make a real impact.
